Senior Salute: Late-Night Breakfasts Are a Favorite Memory

Submitted By: Scarlett Donaldson '20
Batavia, OH

Senior Scarlett Donaldson will graduate with a greater sense of self-confidence as she embarks upon a career as an intervention specialist and teacher in early childhood education.

"My Wilmington College experience, through the great mentors I've had, taught me to believe in myself," said the education major from Batavia whose academic excellence has been acknowledged through her membership in Green Key Honor Society and as the recipient of an Outstanding Student in Education award.

Scarlett fondly recalls the favorite student ritual of Late-Night Breakfast on the eve of final exams each fall and spring when, led by President Jim Reynolds, members of the faculty and staff serve students a meal. That was always something she enjoyed with her friends, which leads to Scarlett's advice to underclassmen and future WC students: "Go meet new friends!"
